Broad network of participating dentists

There are hundreds of participating general dentists to choose from statewide — so you are sure to find one who meets your needs. Each enrolled family member may select a different participating general dentist.

Hassle-free benefits

With a Dental HMO/Managed Care benefit plan, you don't have to worry about deductibles or filling out paperwork for claims. After your plan's effective date, just call your participating dentist to schedule your appointment. When you receive dental services from your participating dentist, you are only responsible for the copayment listed in the dental plan benefits summary for any covered services received.

Plus, if you need specialty care, no problem. Your participating dentist will provide you with the name of a participating specialist. Just call that specialist to schedule your appointment.³ Copayment amounts for specialty services are listed on your dental plan benefits summary. These copayments apply whether the services are provided by your participating general dentist or by a participating specialist.

Keep a healthy dental regimen by getting routine preventive services like exams and cleanings. The copayments for preventive services are usually less than the copayments for fillings, root canals, extractions, etc. Plus, preventive services can help you avoid the need for these higher-cost treatments.

Visit your participating dentist. If you need specialty care, be sure to ask your participating dentist for the name of a participating specialist. This will help reduce your out-of-pocket costs.

Important answers to some common questions

General Plan Questions

How does this plan work?

This Dental HMO/Managed Care plan is designed to support you in maintaining and improving your oral health, providing coverage on hundreds of procedures. There are no deductibles or filling out paperwork for claims, making it easier for you to receive the preventive care you need to help avoid more costly procedures.

With this plan, you are responsible for the copayment associated with each covered procedure when you visit your selected participating dentist. Typically, the copayments for preventive services like cleanings and oral examinations are lower than the copayments for basic restorative services like fillings, major restorative services like root canals, and orthodontia (services that help fix problems with the teeth and jaw).

Please refer to the dental plan benefits summary for a full list of covered services, copayment amounts, information on any limitations and additional charges for certain procedures that may apply, and what is not covered by the plan.

Who can enroll?

You can enroll members of your household under age 19 in the MetLife Children's Dental HMO Plan.

Will I receive an ID card?

Yes. However, you do not need an ID card to access your benefits. After your enrollment information is processed, we will mail you a letter with important information and an ID card. The ID card will include your assigned unique identifying number. Your dentist must use your personal identification number when he or she verifies eligibility and checks coverage.

Network and Provider Questions

Do I need to select a participating (in-network) dentist when I enroll?

No. For California plans, a person's participating dentist will be automatically assigned to him or her. After enrollment, participants may select different participating dentists. You can change dentists online at MyBenefits (www.metlife.com/mybenefits) or by calling Customer Service at 1-855-638-3940.

Can I change dentists?

Yes. Participants may change dentists as often as once per month. You can change dentists online at www.metlife.com/mybenefits or by calling Customer Service at 1-855-638-3940.

Your transfer will be effective the first of the following month. Any requests made after the 25th of the month will occur effective the first of the following month (e.g., a facility request change made on March 28th will go into effect on May 1st).

Please note: you should ensure any dental work-in-progress is completed prior to transferring to a new dentist.

What if I need to see a specialist?

This is a "direct referral" plan, which means your selected participating dentist will refer you to a participating specialist in your area. There is no need to wait for approval.³ Copayment amounts for services are listed on your dental plan benefits summary. These copayments apply whether the services are provided by your selected participating general dentist or by a participating specialist.

Can my dentist apply for participation in the network?

Yes. If your current dentist does not participate in the network, we will be happy to accept your nomination. Just call Customer Service, or to submit your nomination online, visit the MyBenefits website at www.metlife.com/mybenefits and click the "Find a Dentist" link. Once submitted, we will contact that dentist and provide them with an application to join our dental network.⁵

Benefit Questions

What is an out-of-pocket annual maximum?

The out-of-pocket annual maximum is the most you pay during a Plan Year in cost-sharing for participants under the age of 19 before we begin to pay 100% of the maximum allowed charge for covered services. This limit does not include your premium, balance billing charges or the cost of health care services we do not cover.

What if I need emergency care?

All participating dental offices provide emergency access 24 hours a day, 7 days a week. If you cannot reach your selected participating dentist, you may receive emergency care from any licensed dental care professional.

Does this plan cover second opinions?

Yes. Just contact Customer Service to let us know that you would like another clinical opinion and we will provide the name of a dentist for you to see.

¹ Savings from enrolling in a dental benefits plan will depend on various factors, including the cost of the plan, how often participants visit the dentist and the cost of services rendered.

² Certain limitations apply to some services; please review your dental plan benefits summary for full details.

³ In California, orthodontic and pedodontic specialty services require pre-approval. Your participating dentist will contact Safeguard for pre-approval. Once approved, your dentist will contact you with the name of a participating specialist.

⁴ With the exception of scheduled or unscheduled systems maintenance or interruptions, the MyBenefits website is typically available 24 hours a day, 7 days a week.

⁵ Due to contractual requirements, MetLife is prevented from soliciting certain providers.

Missed Appointments: If a Covered Person needs to cancel or reschedule an appointment, please notify the Selected General Dental Office as far in advance as possible. This will allow the Selected General Dental Office to accommodate another person in need of attention. Failure to do this in a timely fashion, may result in being charged a missed appointment fee.
