*updated Sept. 6, 2013*

## About Covered California™

Covered California is the state's marketplace for the federal Patient Protection and Affordable Care Act. Covered California was charged with creating a new health insurance marketplace in which individuals and small businesses can get access to affordable health insurance plans. With coverage starting in 2014, Covered California will help individuals determine whether they are eligible for premium assistance that will be available on a sliding-scale basis to reduce insurance costs or whether they are eligible for low-cost or no-cost Medi-Cal. Consumers can then compare health insurance plans and choose the plan that works best for their health needs and budget. Small businesses will be able to purchase competitively priced health insurance plans and offer their employees the ability to choose from an array of plans and may qualify for federal tax credits.

Covered California is an independent part of the state government whose job is to make the new market work for California's consumers. It is overseen by a five-member board appointed by the Governor and the Legislature.

For more information on Covered California, please visit [CoveredCA.com](http://CoveredCA.com).

## About Covered California's Children's Dental Insurance Plans

California children will get expanded opportunities for better dental health, thanks to Covered California's offerings of children's dental insurance plans.

The plans are for children up to 19-years-old. Purchase of the children's dental insurance plan is not required. However, the plans offer comprehensive child dental coverage, particularly important for consumers of child-only coverage and family plans.

The participating dental insurance plans are:

- **Anthem Blue Cross of California**
- **Blue Shield of California**
- **Delta Dental of California**
- **LIBERTY Dental Plan of California**
- **Premier Access Dental and Vision**

There are three different product types available, depending on where the child lives. The Dental Preferred Provider Organization (DPPO) product offers a wide variety of provider choice within a network of participating dentists and coverage for some out-of-network services. The Dental Exclusive Provider Organization (DEPO) works like a DPPO but does not provide coverage for services provided by dentists outside the network. The Dental Health Maintenance Organization (DHMO) limits coverage to services provided by a dentist within a network and generally requires a referral to be seen by a specialist.

Covered California children's dental insurance plans feature standard copayments, deductibles and coinsurance requirements. Dental plans come in two actuarial value options: 85 percent, which features higher premiums but lower average out-of-pocket costs; and a 70 percent value plan with lower premiums and higher average out-of-pocket costs. An actuarial value is the percentage of total average costs for benefits that a dental plan will cover.

These premiums are for "stand-alone" plans, insurance products that can be purchased by themselves to cover a specific service.

Dental insurance plans must follow Covered California standard benefit designs. Standardizing benefits ensures that the selected plans define what the consumers get and limit the consumer's out-of-pocket costs.

## Children's Dental Plan Standard Benefit Designs – DPPO

ENROLLEE PAYS – DPPO		
Coverage category	High	Low
Diagnostic & preventative	0%*	0%*
Office visit	N/A	N/A
Basic services	20%	50%
Major services	50%**	50%**
Orthodontics	50%	50%
Enrollee costs		
Deductible	\$50 <i>(does not apply to diagnostic &amp; preventative services)</i>	\$60
Annual maximum	none	none
Out-of-pocket maximum	\$1,000	\$1,000
Waiting periods	none	none
Actuarial value	86%	72%

\* Diagnostic and preventative services include x-rays, exams, cleanings and sealants.

\*\*Major services include: crowns and casts, prosthodontics, endodontics, periodontics and oral surgery.

## Children's Dental Plan Standard Benefit Designs – DHMO

ENROLLEE PAYS – DHMO		
Coverage category	High	Low
Diagnostic & preventative	\$0	\$0
Office visit	\$0	\$20
Basic services	\$40*	\$95*
Major services	\$365**	\$365**
Orthodontics	\$1,000	\$1,000
Enrollee costs		
Deductible	none	none
Annual maximum	none	none
Out-of-pocket maximum	\$1,000	\$1,000
Waiting periods	none	none
Actuarial value	87%	72%

\* DHMO basic services copayments vary by procedure within this category. The plan's average copay charge for procedures in this category cannot exceed the stated amount, but may be lower.

\*\*DHMO major services copayments vary by procedure within this category. The plan's average copay charge for procedures in this category cannot exceed the stated amount, but may be lower.

<sup>1</sup> When more than one child is covered by a pediatric dental plan or policy, the policy/plan deductibles and out-of-pocket maximum amounts are equal to two times the individual values, however, each individual child is responsible only for the single deductible and out-of-pocket maximum in a plan year.

<sup>2</sup> DEPO products conform to DHMO Benefit Plan Design

# Glossary

## Actuarial Value

A health insurance plan's actuarial value is the percentage of total average costs for benefits that a health insurance plan covers. These expenses are usually incurred at the point of receiving health care services — when you visit the doctor or the emergency room, for example. Dental plans come in two actuarial value options: 85 percent, which features higher premiums but lower average out-of-pocket costs; and a 70 percent value plan with lower premiums and higher average out-of-pocket costs. An actuarial value is the percentage of total average costs for benefits that a dental plan will cover.

## Coinsurance

Your share of the costs of a covered health care service, calculated as a percentage (for example, 20 percent) of the allowed amount for the service, is called coinsurance. You pay coinsurance plus any deductible you may owe. For example, if the health insurance plan's allowed amount for an office visit is \$100, and you have met your deductible for the year, your coinsurance payment of 20 percent would be \$20. The health insurance plan pays the rest of the allowed amount. The allowed amount is the amount the doctor or hospital has agreed to accept for the care provided.

## Copayment

A fixed amount (for example, \$15) you pay for a covered health care service, usually when you receive the service. The amount can vary by the type of covered health care service.

## Dental Exclusive Provider Organization (DEPO)

A DEPO works like a DPPO but does not provide coverage for services provided by dentists outside the network of participating providers.

## Dental Preferred Provider Organization (DPPO)

A type of dental plan product that delivers dental services to members through a network of contracted dental care providers and includes limited coverage of out-of-network services.

## Dental Health Maintenance Organization (DHMO)

A type of dental plan product that delivers dental services by requiring assignment to a primary dental care provider who is paid a capitated fee for providing all required dental services to the enrollee unless specialty care is needed. DMHOs require referral to specialty dental providers. These products do not include coverage of services provided by dental care providers outside the dental plan.

## Out-of-Pocket Maximum

The most you pay during a policy period (a calendar year) before your health insurance plan begins to pay 100 percent of the cost of covered services. This limit never includes your premium, balance-billed charges or health care your health insurance plan doesn't cover. Some health insurance plans don't count all out-of-network payments toward this limit.
